

**Job Title: Software Engineer**

**Location: Bristol, BS34 7PZ**

**Salary: £42,000 - £55,000 (dependent on skills and experience)**

**Contract Type: Permanent**

Do you enjoy being part of a highly respected team of experts, developing the next generation of solutions to challenges faced around the world? Are you at your best when developing the technical solutions which lead to better, safer, more reliable products? Precision, safety and quality within aerospace, automotive, white goods and energy sectors worldwide have an enormous impact on our lives. Third Dimension are a global leader in the development and manufacture of non-contact, precision measurement solutions.

This is a fantastic opportunity for a motivated Software Engineer with a solid understanding of software engineering practice to establish a highly successful career with Third Dimension. You will support the development of products from concept to implementation and produce specialist support and technical guidance across a range of projects. You can expect a varied and fulfilling job where no two days are the same.

To be successful in the role you will be organised, thorough and a self-starter. You will also recognise the fluid and flexible requirements of a small but growing business, and your communication skills will be second to none.

You will have a strong software engineering background with knowledge of related technologies, extensive commercial C++ and / or C# desktop development experience, algorithms / mathematical experience and be able to write clear, maintainable code.

We are happy to consider a wide range of backgrounds and levels of experience so we would love to hear from you whether this is a direct fit for your experience and skills, or an opportunity where you might need more support and executive team guidance to reach your full potential. We are also keen to hear from applicants who might already be a Senior Engineer, have some team management experience or have the potential to take that next step in the future.

### **What we offer**

- A salary of up to £42,000-£55,000 per annum depending on experience
- Flexible working around core hours (full time working week 37.5 hours)
- Pensions - up to 5% matched employer pension contributions
- Development – as you grow in the role, we will support you throughout that journey
- 25 days annual leave plus bank holidays, rising to 27.5 days after 5 years' service pro-rata depending on hours worked
- Eligibility for the company discretionary bonus scheme after 2 years of service
- Private health insurance
- Healthcare cash plan
- Bike2work scheme
- Share option scheme and profit share scheme
- Payment for up to two professional memberships each year
- Free on-site parking
- Holiday purchase and carry over schemes
- A happy, healthy working environment with free fruit provided each week, and a great group of people to work with

If you are looking for an interesting and varied job where you can use your skills to make a real difference, we look forward to hearing from you! Please submit your CV, and covering

letter to [careers2020@third.com](mailto:careers2020@third.com). Please specify the vacancy reference number when applying – V2005.

You must be able to provide proof of your eligibility to work in the UK and proof of skills and qualifications gained. Appointment of successful applicants will also be subject to receiving suitable references.

We respect and value everyone's contribution. Third Dimension is an equal opportunities employer. We are committed to providing an environment that supports and encourages the many skills, interests and backgrounds and experiences that people from different social groups can bring. We strive to provide a workplace which is free from discrimination, harassment and bullying, and where everyone is treated with respect and dignity.

We are not accepting CV's from recruitment agencies.
