GAPGUN®PRO2

METROLOGY LAB PRECISION ON THE PRODUCTION LINE

ISO 17025 accredited

THIRD DIMENSION
ADVANCING MANUFACTURING

THE INLINE SOLUTION

Rely on a robust tool
Proven to take 1 million measurements in one year.

Take ultra-fast measurements
The GapGun PRO2 has a measurement cycle of just 1 second.

Enjoy a portable and ergonomic tool
The GapGun PRO2 can be taken to the part and can run for up to 8 hours.
100% operator approved.

THE TOOL FOR OFFLINE QUALITY CONTROL INSPECTION

Measure 100s of points of the car easily
The full colour graphic check plans can be tailored to your application and show operators exactly where to measure.

Ensure an audit trail for all measurements
GapGun PRO2 captures measurement digitally. Sensors are calibrated in an ISO17025 certified laboratory.

Get repeatable results
For the sharpest business intelligence.

"Our new handheld laser scanners from Third Dimension ensure perfect consistency in all body surfaces to a tolerance of just 0.025 mm for panel gaps, and 0.01 mm for flush measurements – imperceptible to the human eye. One colleague can do 140 checks in 6 minutes! Due to global demand for our products we must also ensure efficiency, so our colleagues' skills are increasingly augmented by innovation and cutting edge technology."
Automotive OEM UK

Fast   Accurate   Repeatable   Non-contact   Tracable

THE GAPGUN PRO2 COMES EQUIPPED WITH A MARKET LEADING RANGE OF FEATURES

CREATE BESPOKE CHECKPLANS

SPC3d Software lets you define sequences of measurements including photos that users can follow with minimal training.

SHARE MEASUREMENT PLANNING

Manage multiple GapGun PRO2s using one software, SPC3d, and have multiple operators working at once from one plan.

TOUCH SCREEN INTERFACE

Navigate through checkplans easily with GapGun PRO2's touch screen.

EXPORT MEASUREMENT RESULTS EASILY

Export measurement results easily to CSV, SQL, XML, Excel, PDF and other file formats. Interface with most leading SPC packages such as QDAS.

ON SCREEN RESULTS ANALYSIS

View cross sections of the measurement area and results analysis on-screen using standard red/green colouring conventions and warning sounds to indicate go/no go conditions.

CHANGEABLE SENSOR HEADS

Our trademarked "VChange" mechanism mean you can switch between sensor heads easily and quickly.

ACCESS HARD-TO-REACH PLACES WITH EXTENSION CABLE

Take measurements in awkward and small places, when you use the sensor head extension cable.

FULLY INTEGRATED WI-FI CAPABILITY

Feed measurement back to your production systems in real-time.

MULTIPURPOSE DESK DOCK CABLE

Download data straight to the PC and charge simultaneously.

## HI-RANGE SENSOR HEAD CAPABILITY

Measure a range of surfaces including head lights, chrome, high gloss black paint and carbon fibre.

T-SERIES SENSOR HEAD SPECIFICATION

Sensor head T60-V

Sensor head T15-M

Laser	Laser Class 2M with automatic laser intensity adjustment	
Operating temperature	0 to 40°C (32 to 104°F)	
Shock protection	Shock protection jacket on sensor, and high impact plastic housing	
Software	GapGun version 8.1 software	
Operating temperature	0 to 40°C (32 to 104°F)	
Storage temperature	-20°C to 60°C (-4 to 140°F)	
Traceability and calibration	Calibrated under ISO 17025***	

	T60		**T15**	
Example Measurement capability*				
Gap = 0.3 mm	Max bias 0.06	Max SD**0.025	Max bias 0.03	Max SD**0.015
Flush = 1 mm	Max bias 0.04	Max SD**0.01	Max bias 0.03	Max SD**0.01
Radius 0.25 to 1.0mm			Max bias 0.013	Max SD**0.005
Edge radius 0.25 to 1.9mm			Max bias 0.015	Max SD**0.02
Chamfer 0.25 to 1.9mm			Max bias 0.015	Max SD**0.012
Field of view	60 mm		15 mm	
Size	41 x 56 x 99 (1.6x2.2x3.9") WxDxH, Inc jacket		36x60x83mm (1.2x1.9x2.7") WxDxH, Inc jacket	
Weight	170g (5.9 oz)		175g (6.1 oz)	

*according to D19-034 Third Dimension specification under request

ACCESSORIES AND OPTIONS

Included

Docking Station	Charge the GapGun PRO2 and upload data directly to a PC.
Battery Pack	Use for longer with the light-weight battery pack.
Belt Clip	Carry the GapGun PRO2 with ease.
Calibration Block	Calibrate with ease.
Standard Stand-off set	Enables fast and reproducible measurements.

Optional

Head Extension Cable	Take measurements in tight and hard to access locations.
Customised Stand-off set	Custom standoffs available on request.
Specific Calibration	We offer specific calibration services under request.

YOUR LOCAL DISTRIBUTOR WILL BE HAPPY TO HELP ADVISE YOU ON THE BEST SENSOR HEAD AND ACCESSORIES FOR YOUR APPLICATION. TO FIND A DISTRIBUTOR NEAR YOU SIMPLY EMAIL SALES@THIRD.COM

GAPGUN PRO2 DATA COLLECTOR

GAPGUN®PRO2

Display	Full colour, daylight readable LCD touchscreen
Size	97mm (3.8")
Resolution	640 x 480 pixel
Ethernet	100MBPS fast ethernet
Feedback	Audio output and haptic feedback
Operating temperature	0 to 40C (32 to 104F). Internal battery charging limited at higher temperatures
Peripheral devices	USB 2.0 port
Power rating (battery)	4W (4.2v @ 0.95A)
Power rating (charging)	6W (12v @ 0.5A)
Shock protection	Shock protecting cover on sensor and handle, and high impact plastic housing
Size	90 x 135 x 190mm (3.5 x 5.3 x 7.5") W x D x H)
Software	GapGun version 8 software
Storage temperature	-20°C to 60°C (-4 to 140°F)
User interface	Click and drag touchscreen, trigger and power/reset button
Weight	460g (16oz)
Wireless	IEEE 802.11 b,g,n

COMPATIBLE PC SOFTWARE

SPC3d software pack
For checkplan configuring virtual measurement tools, data logging, reviewing measurements.

Link software pack
Allows custom .NET programs to be written controlling the GapGun PRO2 or Vectro devices.

Inspect software pack
For manual and interactive analysis of measurement data.

Inline software pack
Allows a large overhead display of measured results.

WARRANTY AND SERVICE

1-Year warranty as standard on GapGun PRO2 and all sensor heads.
Maintenance contracts available for hardware and software, bespoke software and hardware development.
Please contact your local Distributor or sales@third.com for more information.

ABOUT

UK based company, Third Dimension design and manufacture the non-contact precision measurement systems, GapGun® (hand-held) and Vectro® (robotic). Established in 1995, Third Dimension has a long track record of supplying non-contact optical measurement equipment and services to the largest names in aerospace, automotive and energy sectors worldwide.

Holder of two Queen's Awards for Enterprise, our systems have been fully integrated into quality control processes by leading OEMs, Tier 1s and 2s in the automotive, aerospace and energy sectors, worldwide.

Achieving ISO 17025 status in 2019, Third Dimension continue to lead the way in non-contact precision measurement tooling.

> "GapGun is the ideal tool for quickly and accurately measuring small gaps and profiles throughout the plane panels... it has saved time and money throughout the production process."
>
> **Aerospace OEM** Germany

ARRANGE A DEMONSTRATION TODAY

Contact one of our expert Distributors in your area to arrange a free demonstration in your factory.

Unsure of who your local Distributor is?
Simply call +44(0)3333 44 3000 or email sales@third.com and we will talk through your requirements and put you in contact with the nearest Distributor to you.
